Another thought on this is there should be a signed FPISC letter granting us an extension for final permit issuance until Jan 18. I have copies of a draft, but I can't locate the signed version yet. Would this letter?

They are saved on our shared drive. I did not post them to regulations.gov or our website. (Note that once something is posted to regulations.gov it cannot be removed.)

OK, thanks. Eric, sorry to ask you to do this but I guess we should take those two web pages out of the record for now as Mike suggests.

Yeah, maybe we do not include those pages in the record for now, and, if later pressed, we would explain that we did not save copies of the websites at the time but could provide these versions. Or, if anyone wants to check with the site owner (is it BOEM or another federal agency) to see if they preserve versions of website pages, since they could perhaps be federal records?

We included a memo to the file which referred to FAST-41 as one reason time was of the essence. That memo was dated January 14, 2022 and referenced the website address. Should we exclude the webpages and just let the memo's reference to the website suffice for our record? I don't think the fact sheet referenced FAST-41 but I'll check.

Greg - I added these to our files. Note that since the 1/18 date has passed, it now shows as being completed on the 18th.

Hi Eric,

Do you have access to a printer? I recall hearing that if we cite to a website in a document, we should print out the document in case the website changes or disappears when the EAB wants to see it.

Ex. 5 Attorney Work Product (AWP)

I would do it but I don't have access to a printer at home. If you can't do it I'll find a way to do it. Just let me know.

Thanks,
Greg
